

ALLEN SNOW
W.W. II

Born in 1920 to parents James and Winnie Snow of Bay Roberts, Allen would along with two of his brothers (Ernest and Wallace) serve during WW2.

The boys seemed to have inherited their fathers' gene for service since he served in both the first and second world wars.

Allen Harvey Snow enlisted in the Royal Artillery and was assigned service No. 1158145.

He saw service in England as part of the Artillery batteries that guarded the coastline of the United Kingdom. It was here that he met and eventually married Kitty, a local girl from the area.

Following the war, they made their home in Rhos, North Wales and raised their family.

Here is the obituary for Allen following his passing in 2001.
